

EU4ALL component overview

Title of component:	EU4ALL Moodle Component
Version number:	2011013100
Date:	2011/02/24
Size of download:	5.3 MB
Description of component:	The IPL-EU4ALL component provides functionalities for the Moodle Virtual Learning Environment to use the User Model, Metadata Repository and Content Personalization capabilities of EU4ALL framework, enhancing the student experience by selecting the resources more suitable for the user accessibility preferences when using a Moodle system.

Before you start

Hardware requirements:	The same as those of a Moodle 2+ instance
Software requirements:	XAMP environment with PHP soap client extension enabled and a functional Moodle 2+ installation with privileges on the system to write files and a Moodle administration account.
Browser requirements:	A XHTML 1.0 compatible browser compatible with Moodle 2+
Developer organisation:	IPL Instituto Politécnico de Leiria (Polytechnic Institute of Leiria)
IPR/Licensing status:	

Implementation

Skills requirements:	Knowledge about the installation of extensions and plugins in Moodle. Knowledge about file system privileges on the destination operative system
Approx time required for installation/configuration:	10 minutes

Key steps:	<ol style="list-style-type: none"> 1. Copy the contents of the [MOODLEROOT] directory to the root directory of a existent Moodle installation and check for file system read privileges by HTTP daemon. 2. As a site administrator, click on Site administration->Notifications to install and follow the wizard steps to install all the module components. 3. Go to Site administration->EU4ALL >Configuration and define each setting accordingly. It's strongly recommended the update of the settings Manager reference and Resource prefix for the ones used on your institution. Save the changes and refresh this page one more time to verify if the system can communicate with the EU4ALL services. 4. The installation is complete. 5.
Location of detailed user guide:	Inside the installation package, Installation instructions/IPL-EU4ALL_moodle_implementation.pdf file.
